## Weltdienst 30+

Weltdienst 30+ is the young division of Senior Experten Service (SES) – a service for all those wanting to benefit from the knowledge of experts and executives and know-how made in Germany.

The experts at Weltdienst 30+ come from all professional walks of life. They are in the prime of their working life and spend their holidays, a sabbatical or other periods of professional leave engaging in industry-related activities abroad.

## A boost for the future

SES is the leading German placement organisation for voluntary assignments carried out by specialists and executives who are either retired or on a leave of absence. SES expert knowledge strengthens local skills – across all industries and sectors.

The duration of assignments carried out on behalf of Weltdienst 30+ generally range from four to six weeks; with six months being the maximum. SES undertakes the entire preparation, while local partners bear the assignment costs. Financing problems are generally solved through public funding: Weltdienst 30+ is funded by the German Federal Government.
